Profile:
Highly motivated and results-oriented Software Engineering student with excellent project management, communication, and teamwork skills. Seeking a Project Management role to leverage academic knowledge and volunteer experience in a professional setting.

Education:
African Leadership University (2024-2027)
Bachelor of Science in Software Engineering

Kagarama Secondary School (2019-2022)
Advanced Level in Physics, Chemistry, Biology

Hard Skills:
Project Management: Hackathons attended
Driving
Soft Skills:
Public Relations
Teamwork
Time Management
Leadership
Effective Communication
Critical Thinking

Experience:
Hackathon:
I attended a **CODEXTREME Hackathon** where I worked with a team of five people on a project for one month. Built a web app.

Community Youth Volunteer (2022-2023):
Led a team of youth volunteers, organising and executing community projects. Through effective communication and task delegation, fostered a collaborative and supportive environment, maximising volunteer impact.

Billion Traders Internship (2022-2023):
Assisted with project management tasks at Billion Traders, a forex trading company. This included researching market trends, analysing data to identify trading opportunities, and potentially creating basic trading strategies. The experience honed my analytical and research skills, while also providing exposure to project management principles within a fast-paced financial environment.
